

WORKING AT HEIGHT (VIRTUAL)

We at Citadel Engineering Company are happy to announce our latest courses from NSL.

With over 50 years' of knowledge, ASCO's experience and capability help customers by transforming operational efficiency, improving processes and continuously enhancing services and systems.

ABOUT THE COURSE:

Despite advances in equipment design and working methods, working at height continues to be one of the biggest causes of major and fatal accidents in the industry.

The purpose of this training course is to make you aware of the rules and regulations and to provide awareness of the hierarchy of risk; fall protection measures and access methods.

ELEARNING - VIRTUAL
