

Training Programs - NSL Subsea Lifting Operations

We at Citadel Engineering Company are happy to announce our latest courses from NSL.

With over 50 years of knowledge, ASCO's experience and capability help customers by transforming operational efficiency, improving processes and continuously enhancing services and systems.

ABOUT THE COURSE:

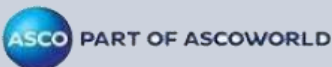

Sub-sea installation operations require a high level of accuracy and control in order to avoid misalignment and possible collisions between modules on the sea bed. The purpose of this course is to deliver an understanding of the dynamic forces involved, equipment specific guidance and operational planning considerations for subsea lifting operations.

ELEARNING - VIRTUAL PRICE & DURATION:

95 \$ Per Person / 1-Day Course
The access period is 1 year

Citadel is always dedicated to provide effective, high quality, and affordable health training to our clients and individuals.
